

# ARTIFEX

Elastisches Schleifen und Polieren  
Elastic bonded Abrasives

**CLEANING OF SUEDE**

Our tools comprise either silicon carbide or aluminous oxide abrasive grain, imbedded in a foamed polyurethane (P) or rubber (R) flexible matrix. For any particular requirement these elastic-bonded tools are available in soft, medium and hard densities, but always in a flexible bonding.

With great focus we today develop and produce products for the technology of tomorrow.

The **ARTIFEX XC** cleaning block is a stain eraser for dry cleaning of suede.

Even persistent stains can be removed through rubbing and brushing.

## WORKPIECES

- Shoes, clothing, bags and a whole lot more

## MATERIALS
