

ARTIFEX BK - WR1

Our material compositions are as individual as your requirements. The ideal composition of polyurethane, resin or rubber with the corresponding grain guarantees the perfect result. Regardless of whether initial equipment, tools with a long service life, economic variants or special glass: you decide what you need, we have the matching series.

THE CLASSIC: SERIES BK – WR1

Pumice and aluminium oxide in a special rubber bond produce a good industrial gloss with a proven long service life.

EDGE PROFILES

Flat edge and aris

Miter 45°

Bevel

Laminated safety glass (LSG)

MACHINES

Single and double edger machines

TOOL

Product : ARTIFEX BK - WR1
Bonding : Rubber | vulcanised
Grain : Pumice, Aluminium oxide
46 | 120 | 180
Hardness : Soft elastic
Colour : Grey
Delivery form : Cup wheels with plate
Dimension : Ø 75 - 170 mm

RESULT

Industrial gloss

ADVANTAGE

Extremely long service life

LSG

We offer this product series segmented with 3-mm or 5-mm slots for perfect laminated glass processing. Your advantage: no clogging of the cup wheels, no sticking of foil on the glass edges. This is how easy it is to process laminated glass.
